 Passed Unanimously
- The requirements of our public liability insurance were discussed and it was agreed to give the new committee to investigate the current policy and what exactly is required by QBE.
- The questions re the insurance and Safety Issues were discussed and the need for Job Safety Assessments to be completed was brought up. If there was a need for a JSA we would have to look into setting up guidelines for each club and examine if it would be a requirement to provide a JSA with a race entry form and also if it would be a requirement to provide a JSA with a Sanctioned Event Application.

Meeting Closed at 8:10pm.
